ANTIOCH, ILLINOIS, THURSDAY, NOVEMBER 19, 1942

FIRST IN RESULTS TO ADVERTISERS NUMBER 15

## Registrants Ask For Additional Mileage Ration

Over 58% of Applicants Want "B" Books for Extra Gasoline

Over 58 per cent of the 378 persons registering yesterday at the Antioch Grade school for basic mileage ration books signed supplemental forms for additional gasoline, according to Prin. R. E. Clabaugh, chief registrar, who is in charge of registrations in Antioch township. The office was open for five hours yesterday afternoon, from 4 to 9 o'clock.

Registrations continue today, also from 4 to 9 o'clock, and registrations Friday will be between 1 and 4 p. m., Clabaugh announced.

The present registration covers only passenger cars and motorcycles and trucks, tractors or gasoline for hauling trailers is not included.

Of the total number of registrants, 218 applications were requested for additional gasoline rationing. These forms are to be handled through the local rationing board at Libertyville.

Only 160 stood pat on the basic ration books which permit one unit of gasoline per week.

Some delay was experienced by those who had not filled out the application forms, or those who failed to bring their car registration card. For those who came prepared, the line moved rapidly, assistant registrars said.

Persons filing supplemental forms may save rubber and gasoline by mailing their applications direct to the War Price and Local Rationing board at Libertyville. It is not necessary to send car registration card for the supplemental book.

## W. A. C. Lieutenant Speaks Before Antioch High School P.-T. Assn.

Lieutenant Elizabeth Corrin, a volunteer in the Woman's Army Auxiliary Corps, was the speaker at the meeting of the Antioch High School P. T. A. at the high school Monday night.

Lieut. Corrin, who is the daughter of Mr. and Mrs. Richard Corrin of Trevor, is a graduate of the Antioch Township High School. She told of the work being done by the W.A.C. at Ft. Des Moines, Ia., where she is instructor.

The local P. T. A. is preparing to conduct a drive for old silk hose, according to the president, Mrs. Edith Elms.

## Red Cross Unit Opens Surgical Dressing Station

A surgical dressing unit under the sponsorship of the local Red Cross is being opened in Antioch as a vital contribution to the war effort, it was announced by American Red Cross members here this week.

The first meeting will be held on Tuesday afternoon, Nov. 24, in the rooms on the second floor of the Webb building, over the Antioch 5 & 10c store. The rooms will be open on Tuesdays and Fridays from 9 a. m. until 4 o'clock, and also on Tuesday evenings from 7 to 9 o'clock.

A large number of women are needed for this work and women are asked to bring a wash dress and head covering, and they may report for work at any time the rooms are open. Materials will be furnished and trained instructors will be in charge of the work.

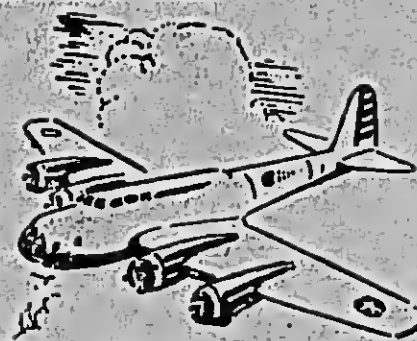

## Plan "Little Theatre" Group For Antioch

Organization of a "little theatre" group is being proposed for Antioch community as a non-profit organization designed for the purpose of furnishing local entertainment and also to present plays to men in service at nearby military camps, according to Mrs. Bette Meyer, who heads the group and who has had long experience in the dramatic field.

Persons over the age of 16 years who have dramatic talent and who are willing to work hard to establish a little theatre group for the community are asked to call telephone Antioch 219-R-2. Besides actors, the successful organization of the group will require the services of stage hands and electricians, Mrs. Meyer said.

## What You Buy With WAR BONDS

A Flying Fortress is to America's air fleet what heavy artillery is to the Army. This gleaming four-motored bomber, equipped with heavy cannon, carries about three tons of bombs and reaches a speed of about 300 miles an hour.

These ships carry a crew of seven to nine men, weigh about 22½ tons, have a wing spread of 105 feet and each motor develops 1,000 horsepower. We need more of these "Flying Fortresses" to compete with the Nazi air force. You can help by investing at least ten percent of your income in War Bonds every payday. Buy them from your bank, post-office or other convenient issuing agent.

## Vitamins Increase Life Span, Food Specialist Tells Woman's Club

Many debilitating and often fatal ailments plagued mankind before the discovery of vitamins, and many people passed away from causes they never understood, Mrs. C. A. Gordon of Kenosha told members and guests of the Antioch Woman's club Monday afternoon at the home of Mrs. W. C. Petty. Mrs. Gordon is food specialist at Gordon's Natural Food store in Kenosha.

Mrs. Gordon stressed how necessary a proper understanding of vitamins is to our health. She suggested that a good plan was to serve one vegetable that grew below the ground and one that grew above the ground which would give a perfect vegetable balance to the meal.

Americans eat too much starch and too much protein, the speaker said, and suggested that what we need is to develop "mind over platter."

Mrs. Gordon demonstrated how tasty raw vegetable salads can be by making two different salads for the club members to sample.

Mrs. William Rosings, Public Welfare chairman, had charge of the program. Assisting Mrs. Petty as hostesses were Mrs. Ralph Clabaugh, Mrs. Melvin Stillson and Mrs. Joseph Horton.

Following the health talk a PTA project was presented to the club members by Mrs. Lester Osmond, Mrs. Adolph Simon and Mrs. Ralph Clabaugh. The project which the PTA is sponsoring this year is that of a supervised and well equipped playground for the children of pre-school and grade school age. They stated that the PTA is asking the cooperation and financial aid of different Antioch organizations which included the Woman's club.

This plan was discussed by the club members present and it was voted that the club sponsor this project, allotting \$50.00 as their share of the expense.

Mrs. Ida Kufalk, Mrs. Otto Klass, Mrs. A. G. Simon, Henry Rentner and Arthur Laursen attended the Fall meeting of the Lake County Division of the Illinois Association of school boards, held at Libertyville Wednesday, Nov. 18.

Mrs. Bertha Burnett is serving on the petit jury in Waukegan.

C. H. Ziegler of Kalamazoo, Mich., is the guest of friends in Antioch this week.

## World War I Cannon is Sent to Scrap Pile

Village Board Sends 6-ton Relic to Ft. Sheridan Salvage Dept.

Our old familiar cannon on the village green is finally being sent to the scrap heap and will emerge as an up to date weapon for use in World War II.

The cannon and gun-carriage, known as a British 5" (60 P.D.R.) gun, and carriage was obtained from the Rock Island arsenal back in Dec. 1935, through the efforts of Village President George B. Bartlett and James Stearns, board member.

The gun was donated to the village under the existing laws, the only cost being the cost of transportation and local expense of mounting.

The gun is being returned through the salvage department of Ft. Sheridan.

The five-inch artillery field piece of British make, weighs 12,130 pounds, and the Army Salvage dept. gets all, including wheel mountings, thus assuring the maximum salvage recovery to our government.

The village board negotiated with 1st Lieut. Quartermaster Albert V. Specht, salvage officer at Fort Sheridan, for the return of the gun.

Forms are in the hands of Village Clerk Roy L. Murrie which will facilitate replacement at some later date when this current war has been won. The action being taken was approved unanimously by the village trustees at their special meeting Wednesday night.

Other action taken by the board was to authorize purchase of two 5 ft. by 7 ft. flags to be placed at each side of the honor roll board for service men being erected.

The board announced that Supervisor Barney Naber has donated a strip of land 20 feet wide on the west side of Hillside avenue from Route 173 to Harden street. Plans are also under way to open up Harden street between Hillside avenue and Route 59. This short piece of land has been owned by the village for several years.

## Local O. E. S. to Install Officers November 27

Antioch chapter, No. 428, Order of Eastern Star, will hold a public installation of officers at the Antioch Township high school Friday evening, Nov. 27, at 8 o'clock. Mrs. C. E. Hennings will be installed as worthy matron and Joseph Horton as worthy patron. They are succeeding Mrs. O. E. Hachmeister and W. J. Anderson.

Mrs. C. N. Lux, past worthy matron of Antioch chapter, will serve as installing officer; Mrs. Eleanor Mitchell as chaplain; Mrs. Elmer Hunter as marshal; Mrs. Alice Freeman, organist; Miss Elizabeth Davis, soloist; Robert Gaston, USN, as flag bearer and June Petersen will give the ode to the flag.

Escorts will be Samuel Pollock, William Petty and Oscar Hachmeister.

Other officers to be installed are: Mrs. Homer B. Gaston, associate matron; Ralph Kinrade, associate patron; Mrs. Arthur Trieger, secretary; Mrs. Robert Wilton, treasurer; Mrs. Richard Chapman, conductress; Mrs. Helen Carlson, associate conductress; Mrs. Freida Vertz, chaplain; Mrs. William Osmond, marshal; Mrs. Harriet Davis, organist; Mrs. Irving Elms, Adah; Mrs. Mabel B. Solomon, Ruth; Mrs. Joseph Horton, Esther; Miss Gertrude Horton, Martha; Miss Lillian Musch, Electa; Mrs. Elmer Petersen, warder; Mrs. Elmer Hunter, seyn tuel.

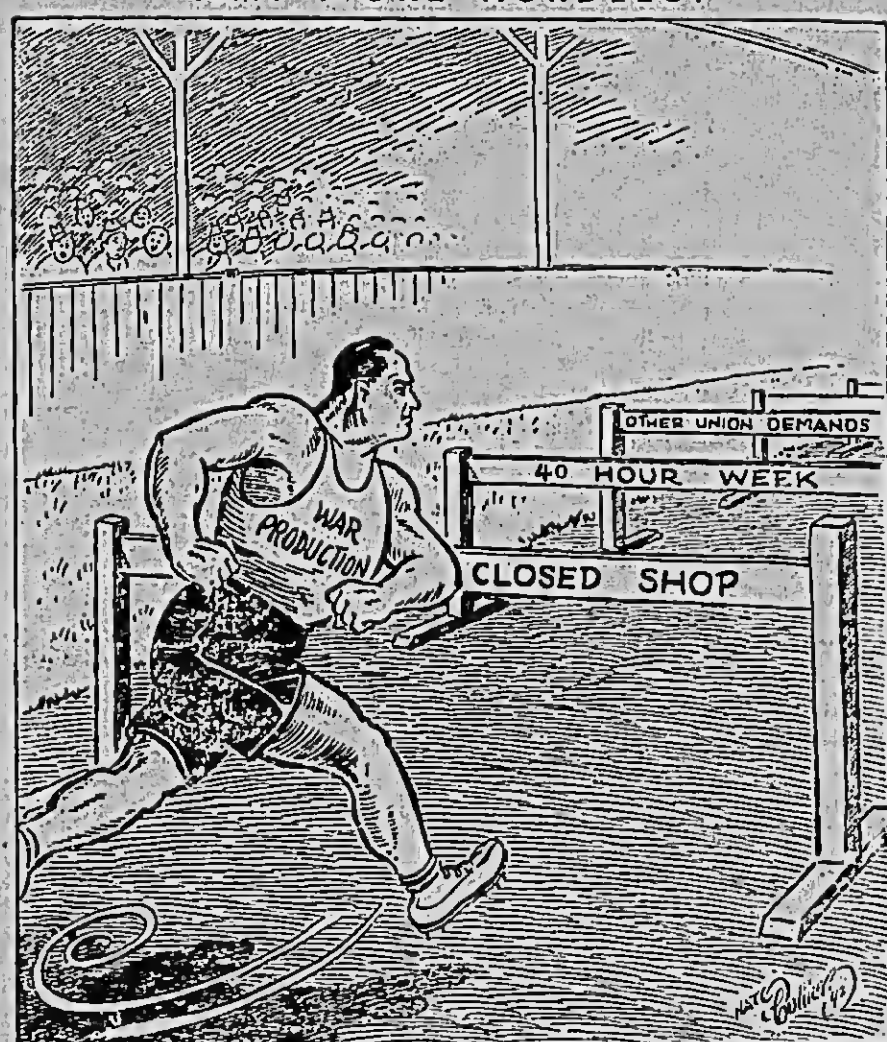

## Grads of Illinois Normal Employed Here

More than three-fourths of the 400 students graduated from Illinois Normal university in 1942 are now teaching, according to a final placement report released by Dr. J. W. Carrington, appointment bureau director.

Fifteen per cent of the graduates entered military service and defense work although men comprise but 19 per cent of the total this year. Two records fell when the placement office received 2,268 calls for teachers and assisted 367 former students and graduates of other years to obtain new positions. The report indicates the acute shortage of teachers, Dr. Carrington points out.

Two of the graduates are now teaching in Antioch. They are: Miss Christine Mary Benjamin, fifth grade, Antioch Grade school, and Miss Ethel Dixon, home economics, Antioch Township High school. Three other 1942 grads were also placed in Lake county, in Warren, Deerfield, and Highland Park schools.

## ANY MORE HURDLES?

## Antioch Couple Will Hold Open House on Golden Wedding Day

Mr. and Mrs. J. B. Drom Married Half a Century Ago

Open house will be the order of the day next Tuesday at the home of Mr. and Mrs. Jacob B. Drom when the couple celebrate their golden wedding anniversary. Guest hours will be from 1 to 5 p.m.

Mrs. Drom was the former Mary Pullen, and the couple were married on November 24, 1892, at Fort Hill, near Hainesville, Mr. Drom came to this community 65 years ago from Iroquois county, Illinois, where he was born.

Injured in a fall several weeks ago in which he sustained a fractured pelvic bone, Mr. Drom has been confined to bed. He is improving and the injury will not prevent him from having a part in the wedding celebration.

For many years Mr. Drom served as a member of the village board of trustees, and most of his active years were spent at farming.

The Droms are the parents of eight children: Jacob, Jr., of Wisconsin Dells; Beulah of Madison; A. T. Drom of New Lisbon, Wis.; Mrs. Helen Prohl of South Milwaukee; Nelson and Edna Drom and Mrs. Clare Horton of Antioch.

## Predict Heaviest Yule Mail in History

The bulk of Christmas mail must be in the post offices by December 1 this year if deliveries on time are to be assured, according to Smith W. Purdum, Second Assistant Postmaster General. Mr. Purdum is responsible to Postmaster General Frank C. Walker for smooth and efficient air and railway mail service.

Unprecedented wartime demands on the postal and transportation systems, plus a prospective record volume of Christmas mailings, were cited by Mr. Purdum as necessitating earlier mailings than ever before. "It is physically impossible for the railroads and air lines, burdened with vitally important war materials, to handle Christmas mailings as rapidly as in normal times," Mr. Purdum said. "If the bulk of parcels and greeting cards are held back until the usual time—the period of about December 15 to 23—they simply cannot be distributed in time, and thousands of gifts will reach their destinations after Christmas."

George Winchell of Milwaukee spent several days last week visiting his mother, Mrs. Agnes Dunn.

As our next publication day falls on Thanksgiving day, the News will be published on Wednesday of next week. Advertisers and correspondents are requested to hand in their copy one day earlier, accordingly.

## Will Dedicate Roll of Honor Here Sunday

Legionnaires, Lions, Citizens Will Unveil Names of Service Men

With Legionnaires, Lions club members, municipal officials and citizens participating, Antioch township's Roll of Honor of Service Men now serving in the global war will be unveiled and dedicated at the village park Sunday afternoon at two o'clock.

The huge sign at the first showing Sunday will reveal the names of 127 men from Antioch township who are now in some branch of military service. It has been the mammoth job of the Legion to compile the list of service men and every care has been taken to assure accuracy, however, the Legionnaires say there may be some omissions. Names will be added as other leave for service. Making the task doubly difficult is the fact that many service men of the community have been summer residents here, having their permanent homes in Chicago or other areas.

Postponement of the dedication from Armistice day, as was originally intended, to this Sunday, was due to the difficulty that arose in securing a correct list of names of service men. In the meantime two four-foot wings have been added to the sign to provide space for additional names as boys from this community leave for military service.

Sharing the expense of the Honor Roll is the Antioch Lions club, the local Legion post and citizens.

The following program for the dedication service was announced today:

Program—Village Park—2:00 P. M. Called to order by Commander L. C. Heath, Antioch Legion Post. Advance of colors by Legion Posts. Singing of America, accompanied by Antioch High School Band. Pledge Allegiance to the Flag—Assembly.

Opening Prayer—Rev. F. M. Flaherty. Greetings—President George B. Bartlett, Antioch Village Board.

Greetings—Supervisor B. F. Naber, Antioch Township.

Selection—Sons of the Legion Drum Corps. Remarks—Rev. W. C. Henslee.

Introduction—Adj. John L. Horan, Antioch Legion Post.

Greetings—Pres. George Wagner, Antioch Lions Club.

Remarks—Past Commander Roman B. Vos, Commander Antioch Defense Council.

Selection—Antioch High School Band. Introduction—Douglas Getchell, Selective Service Board.

Selection—Sons of the Legion Drum Corps. Dedication Address—Commander Arthur C. Fuller, 10th Dist. American Legion.

Star Spangled Banner—Antioch High School Band. Retiring of the Colors—Legion Posts. Closing Prayer—Rev. J. E. Charles.

## Libertyville Girl Is Bride of Homer White

Miss Ruth Boyson, daughter of Mr. and Mrs. Henry Boyson of Libertyville, became the bride of Homer White, son of Mr. and Mrs. George White of Antioch, in a ceremony performed at three o'clock Saturday, Nov. 14, at the Methodist church in Libertyville. The Rev. L. H. Hannitt officiated. The church was beautifully decorated with yellow and white chrysanthemums and ferns. Given in marriage by her father, the bride wore a white satin gown. Her fingertip veil was lace bordered and she carried white roses.

Miss Evelyn Boyson was her sister's bridesmaid in a gown of blue satin with matching blusher and carried a bouquet of blue and pink sweet peas. Robert White served his brother as best man and Richard Boyson, brother of the bride acted as usher.

Mrs. White, mother of the bridegroom, sang "Dearest" by Van Alstine and "The Sweetest Story Ever Told" by Stults, accompanied at the organ by Hans Von Holwede.

Mrs. Boyson, mother of the bride, chose blue crepe with black accessories while Mrs. White wore black with black accessories. Both wore white gardenia corsages.

A reception for 200 guests was held at the home of the bride's parents. The happy couple left on a short honeymoon trip.

Mrs. Myrus Nelson of Antioch, Mrs. Kenneth McCord of Waukegan, Mrs. Gregory Yahnke of Libertyville and Mrs. Bruce Dalgard of Antioch were guests of Mrs. Warren Smith at her home in Villa Park, Sunday.

## Longer Work Week Essential

In a survey recently published by the Brookings Institution, the recommendation is made that the actual working week in this country be increased from an average of 42.5 hours to 48 hours per week in 1943.

Discussing the problems involved in raising, equipping, and supplying armed forces totaling 9,500,000 men by the end of 1943, the report predicts drastic curtailment of civilian goods production, great expansion of the ship-building program, and the induction of 6,400,000 more workers into the nation's labor force.

To add 6,400,000 persons to the labor force, the Institute declares, would necessitate employing 50 per cent of the available non-farm housewives under 45 without small children; more than 15 per cent of the youths between 14 and 19 who would normally be in school; and more than 15 per cent of the workers who would normally retire.

"A goal of 12,000,000 men in the armed forces by the end of 1944 would be even more difficult to attain. It would require in 1945 at least 10,400,000 additional persons in the labor force."

It would be necessary to employ all the non-farm homemakers without young children as well as 20 per cent of the youthful and aged workers. "It would be more difficult to secure these larger additions to the labor force in 1945, and far-reaching dislocations in the social fabric would be a consequence."

All this is coupled with the assumption that we could in addition secure 150,000 Mexicans and that the actual work week will be forty-eight hours for all workers, young and old, men and women. In fact, in many instances, the survey shows the actual hours of work would have to be in excess of fifty.

These figures on work weeks will come as no great shock to the nation which is aware of the fact that the English already have had women working fifty-five hours a week and men sixty hours—to say nothing of the almost inhuman burden placed on Russian and German workers.

## A Living Symbol

Families or parents who have men in military service have something to be thankful for that they probably do not fully appreciate as yet. Our military forces enjoy the most technically perfect, the most humane medical care ever conceived. The best men from the ranks of medicine are in uniform.

An incident that happened recently aboard a battleship "somewhere in the Pacific" may not prove unusual. An enlisted man was abruptly stricken with acute appendicitis. After a successful emergency operation in the ship's surgery, he found himself attended by his family doctor from his home town. The feeling of confidence and reassurance that flowed into the heart of the patient can well be imagined! Such incidents by repetition will become one of the biggest morale boosters both on the home front and the military front.

The doctor is a vital connecting link between the service men and the country for which they fight. And he takes far more into the Army with him than the skills of his profession. He takes with him the cream of American character instilled in him through years of study in our cultural and medical institutions. He is the best that our way of life can produce. He is a living symbol to the men at the front of the principles of integrity and decency that we are fighting to save.

## Teen Age Restriction Opposed

Referring to the proposed amendment to the Selective Service Act which would restrict the service of 18-19 year old selectees to continental United States for a year after induction, the National Association of Manufacturers is obliged to point out that this measure would hamper both the Army and war production.

The amendment "would immobilize for production purposes two potential workers for every new worker needed and give the Army a force it was prevented from using." Further, the Association statement calls to attention to the fact that "it would force the draft of presently employed help which industry must have and at the same time it would remove a large group from the field of potential war production."

If the Army cannot have the teen-age youths which it needs desperately, it will be forced to call up older men and many of these must come from the ranks of manufacturing labor where they are performing highly essential work. This would curtail war production and render more acute an already serious manpower shortage.

## MILLBURN

The Rev. L. H. Messersmith spent Monday in Chicago.

Mr. and Mrs. George Olson of Waukegan, Mr. and Mrs. Eric Anderson and daughter, Rebecca, and Robert Prince were dinner guests at the Bauman home Sunday.

Mr. and Mrs. J. S. Denman and Mr. and Mrs. Emmet King drove to Decatur Sunday, attended a two day convention of the State Farm Mutual Insurance Co. there and returned home Wednesday.

E. A. Martin spent Friday in Chicago.

Mr. and Mrs. Raymond Hauser, Mrs. Frank Hauser, Glenn and Phyllis Hauser were dinner guests of Mrs. Charles Hoff at Camp Lake, Wis., Sunday.

Mr. and Mrs. A. C. Grant of Edison Park called at the O. L. Hollenbeck home Saturday.  
Miss Marion Edwards spent Thursday afternoon in Chicago.

**For a Gas Mask**  
No amount of rubber is too little to salvage. It takes only 14 pounds to supply the rubber for one more gas mask. And no doubt you've heard that the Japs are using gas.

"We're putting in a party line instead of a private line—and saving two miles of copper wire"

"Yes, sir! New private lines for everybody would take big supplies of copper and tin and rubber and other scarce materials that Uncle Sam needs for fighting."

"So, our company is trying to stretch telephone equipment just as far as it will reach. In some cases, this may mean giving party-line service for the

duration. . . . But service here is still good, fast and sure. . . . Lots better than in any Axis country."

"Most people who have party lines follow a sort of 'good neighbor' policy. They try not to talk too long because that ties up the line so others can't use it. They share and share alike—and get along famously!"

When Present Stocks of New Cars Are Sold, THERE WON'T BE ANY MORE! If You're Going to Need a New Car for Essential Work—BETTER APPLY FOR ONE NOW.

**R**IGHT now, Buick dealers can offer you selection from complete stocks of unused 1942 Buicks built before automobile production halted.

But every week that goes by increases the number of cars now in use that simply must be replaced in the very near future.

These cars can be replaced only from existing stocks. If you regularly drive a car in really essential service, don't take a chance on finding present stocks exhausted by trying to get the very last mile out of it.

Turn it in, for use by some other essential user who doesn't drive as much as you do.

New-car buying regulations are aimed at conserving both new cars and cars now in use. They also seek to put new cars in the hands of those who need them most.

Thus if you can show real need—now, while cars are available—you can get a permit to buy now, while cars can be bought.

Permits to buy won't do any good when there

are no cars to be had!

Your Buick dealer will be glad to give you all information on new-car buying regulations and procedure. At the moment, he can make immediate delivery

to qualified buyers on almost any 1942 Buick model.

But because Buick factories have been all-out on war production for many months, your dealer won't be able to help you when cars now available are sold.

Better see him NOW about applying for that car you're going to need.

## IF YOU ARE INCLUDED IN THIS LIST YOU'RE ELIGIBLE

There are seven major classifications for persons eligible to buy new cars under basic rationing rules.

These include: (1) persons engaged in the production of war materials or the prosecution of the war, directly or indirectly; (2) physicians, nurses, clergymen, veterinarians; (3) car-owners engaged in public service, such as fire departments, public health, highway maintenance, etc.; (4) owners of taxicabs and other means of transportation; (5) farmers; (6) newspaper wholesalers; and (7) traveling salesmen in certain fields.

Your Buick dealer will be very glad to help you determine whether you come under the rules of eligibility. He will also be glad to help you fill out the proper applications.

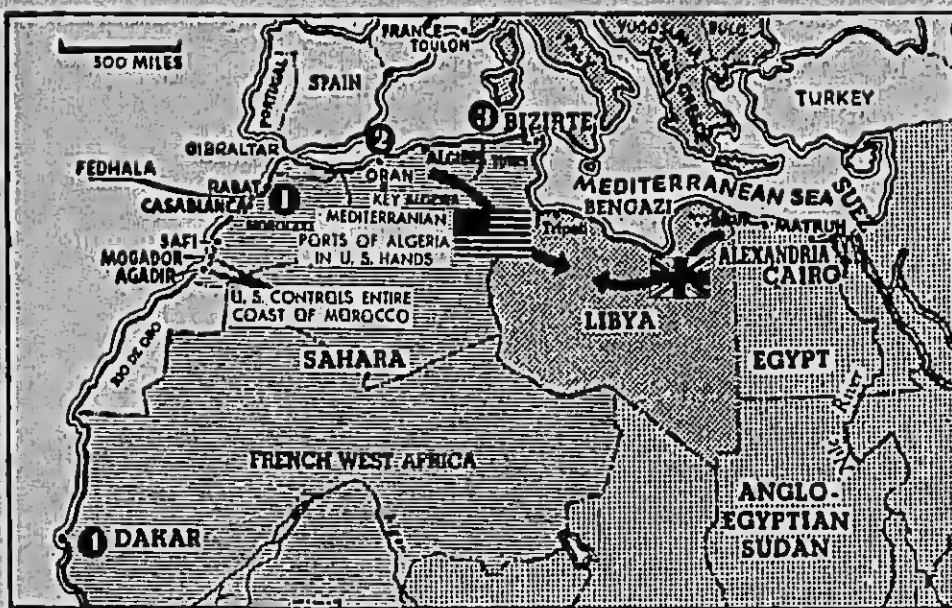

Don't guess about your eligibility—see your Buick dealer now and make sure.

## WEEKLY NEWS ANALYSIS

# U. S. North African Occupation Seen As 'Springboard' for European Front; Hitler's Seizure of Southern France Thins Axis Forces for Russ Campaign

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)  
Released by Western Newspaper Union.

Territory in North Africa occupied by U. S. expeditionary forces under Gen. Dwight D. Eisenhower will be used as a springboard for offensive action against Italy, the Adriatic Balkans and possibly southern France, military experts believe. Principal features on above map show (1) American control over Atlantic ports in French Morocco; (2) Mediterranean ports of Oran and Algiers in American hands; (3) strategic Bizerte in Tunisia, which would complete Allied control of the south Mediterranean; and (4) Vichy-held Dakar, which military experts expect to be taken over by Allies.

## HITLER: Seizes All France

Military observers agreed that Hitler's seizure of unoccupied France meant a further lengthening of his lines and a weakening of his forces.

The Fuehrer had no other choice than to try to close the "back door" to prospective Allied invasion by ordering his own legions southward to the Mediterranean and the Spanish frontier and those of his Italian "stooge" northward to the Riviera. Corsica, island birthplace of Napoleon, was likewise seized.

But Hitler's move into southern France meant that 20 to 30 Axis divisions would have tied down in occupation duties, thus weakening the English channel invasion coast and also his forces along the far-flung Russian front where action was at a stalemate. He had likewise enlarged the area where the Nazis would be sabotaged as they already have been elsewhere in occupied Europe.

Reports from Russia indicated the Nazis had already begun to withdraw troops to build up their defenses elsewhere in Europe. These were further substantiated by word from Greece indicating the arrival of fresh German units at key seaport bases.

Significantly, Hitler had first stopped his occupation forces 30 miles short of the French naval base at Toulon, designating it as a "camp retranche" to be by-passed and set apart from occupation. Center of speculation since the 1940 armistice, the French fleet comprising 62 warships was the prize at stake with the Axis standing on the near side of the Mediterranean and Allies on the other. Now an Allied "collaborationist" in Africa, Adm. Jean Darlan had added his voice to that of Gen. Dwight D. Eisenhower in a request for the French fleet to join him in Algeria.

## ALLIES OPTIMISTIC: Channel Thrust?

From both sides of the Atlantic official optimism over the war's future outlook was expressed by leaders as a result of the Allied successes in North Africa.

President Roosevelt predicted the Axis' inevitable defeat, and welcomed the increasing number of Frenchmen who are joining the United Nations' cause.

In London, Prime Minister Churchill for the first time since the bleak days of 1940 told the British public to rejoice. Mr. Churchill pointed out that a direct thrust across the English channel was coming in due time. He suggested that the day would be nearer as soon as it was evident that Germany was becoming "demoralized." The prime minister said that the Allied drive in Africa had as its primary objective the "exposure of the underbelly of the Axis, especially Italy, to heavy attacks."

The extent of the armada that had carried American and British forces to the shores of North Africa was disclosed by Oliver Lyttleton, British minister of production, who said that 500 transports and 350 warships had comprised the mammoth invasion fleet.

## BLITZ TIMETABLE: Beats Schedule

Two immediate jobs had remained for Gen. Dwight D. ("Iron Mike") Eisenhower's American invasion forces after they had completed their spectacular blitzkrieg of French Morocco and Algeria in the record time of 77 hours.

One job was to secure control of rectangular Tunisia, a French protectorate jutting northward into the Mediterranean and offering via strategic Bizerte an ideal stepping stone toward the Axis "soft spots" of Italy and the Adriatic Balkans.

The other job was to complete with their British Allies the nutcracker drive into Libya to smash forever Marshal Rommel's all but extinguished Afrika Korps.

The capture of Morocco and Algeria had given the Americans control of 1,300 miles of precious North African seacoast on the Atlantic ocean and the Mediterranean sea, including the key ports of Casablanca, Rabat, Oran and Algiers. Significantly enough, it was Adm. Jean Darlan, French chief of all defense forces who had given the "cease-firing" order to the French North-African colonies. Darlan was now in a new role of collaborationist with the United Nations, after secret negotiations with American army officers. The welcome of the American forces by the French-African inhabitants had been warmed by the presence with them of heroic Gen. Henri Giraud, dramatically flown to Algeria from France after a secret rendezvous with British airmen.

Neighboring Tunisia was of key importance not only because of its strategic value for future offensives against Hitler-dominated Europe, but because of the concentration there of Axis air-borne troops and combat planes. Hitler had not intended to give up North Africa without a struggle. His hold upon it would not have been possible without Tunisia. Possession of the port of Bizerte, best equipped French Mediterranean naval base, by the United Nations would mean that the Allies would have relatively easy access to Sicily and the Italian mainland and an effective springboard to nearby Tripoli, former "powerhouse" of Axis North African activities. Success of the AEF operations prompted President Roosevelt to raise Gen. Mark Clark, second in command, to the rank of lieutenant general.

## ROMMEL: 'Nutcracker Bait'

Like a groggy prize-fighter backpedaling before a knockout punch, Marshal Rommel's shattered Afrika Korps had scurried across Libya pursued by General Montgomery's conquering Eighth British army.

The chase had been nip and tuck with Rommel trying to reach Tripoli, his main base near Tunisia in an effort to use his remaining strength to make a stand. But Tripoli meant no rest for Rommel, for oncoming American armies from Algeria in the west and Montgomery's battering ram from Egypt in the east would converge in a mighty nutcracker movement to annihilate Axis power in North Africa.

## DRAFT:

## Inductions Soar

Induction of 18 and 19-year-olds into the nation's armed forces by January 1, 1943, appeared certain as the senate finally approved legislation lowering the selective service induction age. In order to fill military requirements up to the first of the year, local boards throughout the country indicated they would soon have to begin drafting childless married men.

Final impediment to the law's passage was hurdled when a group of senators decided not to press their attempt to require a full year's training for all the 18 and 19-year-olds before they could be sent into combat service overseas. The house had previously approved a measure eliminating this feature.

Meanwhile, selective service headquarters disclosed that local boards had been advised that "increasing demands of the armed forces require that a large number of men in essential activities who are liable for service be released for induction."

This meant that war plants would have to release key workers for the army and navy.

## RUSSIAN FRONT: Nazi Drives Stalled

Communiques from Moscow took on an increasing note of optimism as the Russians maintained that the German offensive against the Red lines from the Baltic to the Black sea had been smashed for the year.

Southeast of Nalchik where the German drive for the strategic Trans-Caucasian military highway had been stalled, the Russ defenders continued to repel attacks. Elsewhere in the Caucasus the Reds were holding the Nazis well in check. Soviet armies continued to keep a German force encircled in the mountainous vicinity of Tuapse, Black sea base, and thwarted every enemy attempt to break through.

The defenders of Stalingrad continued their heroic resistance. While small enemy detachments infiltrated from the south these were thrown back. Meanwhile Soviet troops northwest of the city continued to harass the Germans.

## SOUTH PACIFIC: MacArthur Pincer

Slam-bang warfare continued in the air and on the ground in the South Pacific, with American and Australian forces pressing the Japs hard on New Guinea and at Guadalcanal in the Solomon Islands.

General MacArthur's headquarters reported that at Oivi on New Guinea, Allied forces were using pincer tactics to squeeze the Japs out. Australian columns had cut off a

GEN. DOUGLAS MACARTHUR

Japanese retreat by means of a flanking movement. The Japs' effort to cut their way through to the rear had been stopped by American troops flown by aerial transport to the vicinity of Buna, 55 miles north-east of the Oivi battleground in the Owen Stanley mountain area.

At Guadalcanal, American troops met enemy attempts to recapture Henderson airfield by an offensive that threw the Japs back several miles. An example of spectacular heroism in the Guadalcanal fighting was cited by a navy department release recounting the feat of Marine Pvt. Albert A. Schmid, whose companions in arms say he killed more than 200 Japs in a single night, while manning a machine gun.

From Washington came a navy communique announcing the sinking of seven more Jap ships in the southwest Pacific by American submarines.

## U. S. ARMED FORCES: To Total 9,700,000

Armed forces for the United States totaling 9,700,000 by the end of 1943 were envisioned by President Roosevelt.

Mr. Roosevelt's estimates included an army of 7,500,000, a navy of 1,500,000 and marines and coast guard forces totaling 700,000.

The bulk of future additions to the military forces will go to the army, whose present strength is 4,500,000, the President pointed out. The navy will be augmented by 500,000 and the marine corps and coast guard by 300,000 men during the next 12 months.

On the basis of calculations that it requires nine workers to support one fighting man in the field, the President's estimates would mean that a working force of 87,300,000 men and women at home would be needed to back up the armed forces.

## Why America's Cars and Trucks Are VEHICLES OF VICTORY\*

- Sole transportation for war workers in many communities.
- Sole transportation for war materials in many communities.
- Six out of every ten farms use one car or more.
- 67 per cent of all farm car mileage is necessity driving.
- Many war plants depend on trucks to haul all "Victory" freight.
- Trucks alone serve 54,000 communities not reached by railroads.

## HIGHLIGHTS . . . in the week's news

**LA VALETTA, MALTA:** British forces in Malta opened a new air-drome with ceremonies presided over by Viscount Gort, commander in chief. Lord Gort said he was looking forward to the day when the island which has withstood so many Axis aerial attacks would become an advanced base for an offensive against Italy in movements from North Africa.

**HAVANA:** President Fulgencio Batista of Cuba will pay an official visit to the United States, arriving in Washington December 8, it was announced here. The Cuban chief executive will confer with President Roosevelt and then visit various American cities. General Batista will make the trip on the invitation of President Roosevelt and will be a White House guest overnight.

# IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

## MOTIVES THAT STRENGTHEN FAMILY LIFE

LESSON TEXT—Exodus 2:1-4; Joshua 24:14-15; Ephesians 5:22-31; 6:1-4.  
GOLDEN TEXT—Love never faileth.—I Corinthians 13:8.

Last week we saw the things which mar the life of the family, now we turn to those things which give strength to the home and to daily life. This is a lesson much needed just now when so much of our normal home life is thrown out of joint. We begin at the right place when we say that there must be a

1. Recognition of God in the Home (Exod. 2:1-4; Josh. 24:14-15). Failure at this point is without question the great mistake of our day. Christianity touches every phase of life, but nowhere is its blessed influence of greater importance than in the home.

Our lesson suggests that this is to be done in two ways in our homes.

1. By Faith in God (Exod. 2:1-4). The story of the birth of the babe who was to be Moses, possibly the greatest civic, social and religious leader of all time, reminds us of the Jewish people, who had found favor in the eyes of the Pharaohs in Joseph's time, were now being persecuted. A decree had gone out that all boys were to be destroyed at birth.

Here were two parents faced with the awful fact that their baby-boy was condemned to death. Did they weep in fear and despair? No, they trusted God and sent the little one forth on a venture of faith, the charming story of which follows the verses of our lesson. God honored their faith by using their enemies to serve them.

2. Service for God (Josh. 24:14-15). Joshua, who followed Moses as the God-appointed leader of Israel, was giving his last admonition to his people. He knew how they had repeatedly turned from God in unbelief and sin; yes, that even now some were worshipping false gods.

He pleads with them to turn to the one true God, but notice that his plea is made effective by the fact that he and his house were serving the Lord. Every man who has a position of leadership in this world is responsible for the use of that place of power, as a testimony for God. Now and then we hear of a high public official in our own land who loves and serves Christ in sincerity, and our hearts rejoice. The faith of a whole nation may thus be strengthened.

Every one of us has a sphere of influence, and our family life counts for or against God in our own community and among our own friends.

The members of a family that recognize God have a high

11. Regard for One Another in the Home (Eph. 5:22-31; 6:1-4). It is pure hypocrisy for the family to parade an outward show of religion which does not effectively touch the relationships within the home. Incidentally, it is the kind of hypocrisy which is strikingly ineffective—men see through it too easily.

What then does Christianity do for the home itself? It determines, directs, sweetens—yes, glorifies the relationship between

1. Husband and Wife (Eph. 5:22-31). This passage puts marriage on the highest plane, comparing it to the relationship between Christ and the church. Thus marriage is the joining of man and wife in a sacred union which calls forth love in its highest and noblest sense.

This means that the husband cherishes his wife as his own body, against which no man would do any harm, and for which he makes every possible provision for its comfort, health, usefulness and attractiveness. Such love between parents will lead the entire home life along in a serene, happy and wholesome way. It will not only double the joy, but will give strength in the hour of sorrow, dividing the griefs and burdens of life.

It will set the pattern for the right relationship between

2. Parents and Children (Eph. 6:1-4). The first and one might almost say the only law of childhood is obedience. It is God's way to joy and a satisfying life experience for the child in the Christian home. The command to obey carries with it the understanding that the parents are "in the Lord." What father or mother is competent to direct a child apart from faith in Christ?

Notice too, that the parent has an obligation to deal intelligently and kindly with the child. We need a great deal of improvement, and perhaps instruction, at that point. Authority asking obedience is necessary, but it can be wise and kind.

Above all, there is to be a divine nurture, a guiding of the tender child life in the ways of God. Here is life's greatest opportunity and its life's greatest challenge. How surprising that fathers (and mothers) who are looking for the greatest measure of usefulness to their generation fail to see it in the privilege they have to rear intelligent, godly children.

**CHRISTIAN SCIENCE CHURCHES**  
"Mortals and Immortals" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, November 15.

The Golden Text was, "The earnest expectation of the creature waiteth for the manifestation of the sons of God" (Romans 8:19).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "As is the earthy, such are they also that are earthly; and as is the heavenly, such are they also that are heavenly. For this corruptible must put on incorruption, and this mortal must put on immortality. So when this corruptible shall have put on incorruption, and this mortal shall have put on immortality, then shall be brought to pass the saying that is written, Death is swallowed up in victory" (I Cor. 15:48, 53, 54).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The sinless joy—the perfect harmony and immortality of life, possessing unlimited divine beauty and goodness without a single bodily pleasure or pain—constitutes the only veritable, indestructible man, whose being is spiritual. Death can never hasten this state of existence, for death must be overcome, not submitted to, before immortality appears" (p. 79).

of information states that scarcely a home in England has escaped the loss of one or more of its members in the war. Surely we should be profoundly thankful to our Heavenly Father that no bombs from enemy sources have fallen on our beloved land, and that none of our sons or daughters have been lost in battle.

The Methodist church of Antioch invites you with your family and friends to join in their Thanksgiving service next Sunday at 11 A. M.

At 7:30 on Wednesday evening there will be a community service of thanksgiving to God for His blessings; and for His guidance in these trying times, and for His protection of our sons and daughters across the sea. Every one should find time for this hour of recognition of the hand of God in human affairs.

Warren C. Henslee, Minister.

## PRAYER AND THOUGHT FOR THE WEEK

Contributed by the Baha'i Group

"O Thou King Lord!

"Thou hast created all humanity from the same stock. Thou hast decreed that all shall belong to the same household. In Thy Holy Presence they are all Thy servants, and all mankind are sheltered beneath Thy Tabernacle; all have gathered together at Thy Table of Bounty; all are illumined through the light of Thy Providence.

"O God! Thou art kind to all. Thou hast provided for all, dost shelter all, conferrest life upon all. Thou hast endowed each and all with talents and faculties, and all are submerged in the Ocean of the Mercy.

"O Thou kind Lord! Unite all. Let the religions agree, and make the nations one, so that they may see each other as one family and the whole earth as one home. May they all live together in perfect harmony. O God, Raise aloft the banner of the oneness of mankind. O God! Establish the Most Great Peace! Cement Thou, O God, the hearts together. O Thou kind Father, God!

Gadden our hearts through the light of Thy Guidance. Delight our ears with the melody of Thy Word, and shelter us all in the Stronghold of Thy Providence.

Thou art the Mighty and Powerful Thou art the Forgiving and Thou art the One who overlookest the shortcomings of all mankind."

"O Son of Being!  
"Busy not thyself with this world, for with fire we test the gold, and with gold we test Our servants."

Baha'ullah.

## News of the Boys in Service

Letters continue to come in showing appreciation for, and thanks to the local Legion post and Antioch News for our weekly paper. To those of us at home the local paper is taken for granted and we read what interests us most, whereas many boys have no other news except letters from home and really get a kick out of all the news found in the weekly issue.

### A Few Bits of News

Pvt. Alfred Andersen of Lake Villa, now in North Carolina: "Students go to school at 7 o'clock in the morning and go until 8 at night. Off Sat. and Sun. until 6, then back to class."

Pvt. Harold A. Atwood, Antioch, at Chanute Field: "Passed two tests, weather observer school and Office Candidate school, expect to change soon. Also met Russell Roepenack."

Pvt. Richard Davis, Antioch, at Herbert Smith Field: "Happy to get the News as it makes it seem closer to the old home town."

Cpl. Harold E. Grochli, Lake Villa, overseas: "I have been moved to another island and hope to continue receiving the paper."

Wm. W. Hasney, Antioch, in boot training in Florida: "We have no newspapers available in camp and papers are welcomed by the boys even though from other localities."

Pfc. Donald A. Nelson, Lake Villa, now abroad: "Appreciate the News although delayed since leaving Fort Dix." Jim Mapleshorpe is supposed to be in the same vicinity. It's a small world after all.

Raymond Burnette, who is serving with armed forces at Presque Isle, Maine, writes to parents and friends here that he is well and that he is enjoying his work with the army. His family remains at Harrisburg, Pa., where he was formerly stationed, and they will probably stay there for some time, due to shortage of housing facilities at his present location. Last week Raymond made a trip to New Brunswick, Canada, which he writes he enjoyed. He sends greetings to friends here.

Great Lakes, Ill., Nov. 18—Now a member of America's fighting sea forces, John Morris Blackman, 20, husband of Mrs. Lorraine Blackman, 786 Parkway Ave., Antioch, Ill., reported to the U. S. Naval Training Station here last week for a period of recruit training.

Instruction for recruits—known as "boot" training—includes drilling, vigorous physical conditioning, seamanship, and Naval customs and procedure.

Recruits are given a series of aptitude tests through which they may qualify for advanced training at one of the Navy's many service schools with an opportunity of obtaining a petty officer rating. Some, also, are selected for immediate active duty at sea or some other shore station.

Upon completion of the training period a nine-day leave is granted.

## What You Buy With WAR BONDS

The sixteen-inch coast gun is the most powerful of all American guns and costs about \$2,000,000 each. It will throw a shell weighing up to a ton many miles. The Coast Guard also has an eight-inch mobile rail-way gun which will hurl a heavy projectile about 18 miles.

For defense of our homes, the Coast Guard needs many of these powerful weapons. You can do your part to help pay for them by investing at least ten percent of your income in War Bonds and Stamps every payday.

### Veritable Victory

IN 1 CHRONICLES (29: 11, 12) we read: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all. . . . In thine hand is power and might; and in thine hand it is to make great, and to give strength unto all."

Christ Jesus realized clearly the allness of God and the powerlessness of evil. Always the Teacher was confident of victory! And he accepted even the possibility of defeat, there would have been no resurrection. In our Master's thought there was no defeatism, no fear, no cowardice, no doubt, no confusion. As his followers, we too can be confident at all times and under all circumstances of a decisive and complete victory over evil, whether it be sin, sickness, lack, war, or death itself.

The real man is not conscious of, nor subject to, war, disease, famine, persecution. Man is spiritual, and because he is spiritual, dwelling continually in the realm of Love, he is indestructible, eternal, incapable of experiencing sin, sickness, sorrow, or death. Neither bomb nor bullet, disease nor death, can destroy man, God's spiritual idea. To understand these spiritual truths brings release from human suffering, protection from danger, and the God-given ability to conquer all evil.

Mary Baker Eddy tells us in "Science and Health with Key to the Scriptures," (p. 571): "At all times and under all circumstances, overcome evil with good. Know thyself, and God will supply the wisdom and the occasion for a victory over evil. Clad in the panoply of Love, human hatred cannot reach you. The content of a higher humanity will unite all interests in the one divinity." To be "clad in the panoply of Love," which is the Christian warrior's armor, shields one from the enemy's treacherous blows, and enables one to face danger fearlessly, to go steadily forward until all belief in evil is annihilated and the total victory won. No evil can come into the experience of one who truly loves God. Spiritual man expresses the omnipresent Love which fills all space, and the understanding of this fact exterminates all that is unlike good. . . .

Victory over evil rests solely upon the understanding that evil is unreal, and that God, good, is All. Love must always triumph over hatred, Truth over evil, Spirit over matter, and divine Principle over aggression and treachery.

Only as brotherly love replaces the evil suggestions of lust, greed, hatred, aggression, racial prejudice in mortal consciousness will wars forever cease. No dictatorship, no sin, no disease, no so-called material force, has power to destroy or intimidate one who clearly discerns spiritual reality. His stronghold is Truth, which is indestructible. Whether the problem to be solved is that of disease or death, war or persecution, there must be no yielding to the enemy, the belief in evil as real. Matter cannot hide or defeat Spirit or Spirit's expression, man, for evil is not the master of good.

Jesus' enemies crucified him in the effort to destroy the good which he taught and proved; but Jesus rose victorious on that Easter morn. Those who may suffer seeming defeat at the ruthless hands of dictatorship can rise with renewed strength; they need not and will not remain helpless at the feet of any aggressor. Justice, harmony, freedom, yes, veritable victory, must be theirs! We are not defenseless, for God, Truth, is our ever-available defense and refuge; we are not powerless, for man is the expression of divine Principle. We can never be robbed of our divine heritage of life and liberty, for God is man's life and by divine decree man is eternally free. Health, abundance, peace, individual freedom, can never be annihilated; they are immortal gifts of Love, our Father-Mother God.

The light of the Christ, Truth, so clearly manifested by our Master, beckons us onward and upward today. The certainty of reaching the goal—victory over all evil—spurs us on to higher mental attitudes, where in evil is seen for what it is—a non-entity. Looking to God, good, we shall behold Love's victory.

Over the Top by New Year's Is the  
Plea of Secretary Morgenthau

November 13, 1942

As of today twenty-one million American workers are investing eight per cent of their salary - every pay day - in United States War Savings Bonds. This is a very remarkable tribute to our armed forces who are fighting this war. But this job is only two-thirds accomplished.

There are nine million additional American workers who are not investing in War Bonds every pay day.

This appeal is directed to two groups of Americans:

First - the twenty-one million people who are investing eight per cent of their wages. We ask them to increase their investment to ten per cent or more.

Second - the other nine million whom we ask to join the Payroll Savings Plan and to invest ten per cent or more of their earnings.

It is our earnest hope here at the Treasury Department that by New Year's Day thirty million Americans will be investing ten per cent or more of their wages in War Bonds through the Payroll Savings Plan.

Harry Morgenthau, Jr.  
SECRETARY OF THE TREASURY

war, to correspond with the figure upon it.

A patriotic program in connection with Armistice day was presented by the combined rooms of the Wilmot Grade school on Wednesday afternoon. The program was opened with "America," sung by the group; Flag Salute by John Schurr, leader; Poem by Gertrude Gyger; Flanders Field, Pearl Swartz; America's Answer to Flanders Field, Raymond Peterson, and the Star Spangled Banner by the entire school. The second grade recited the well known poem, "The Flag Goes By," and Geraldine Gauger recited "Rogues Banquet." Flag Etiquette was given by the Primary Room. A Soldier's Reply to Flanders Field by Joanne Schurr and the entire school joined in singing "God Bless America." The Grade school as well as the Union Free High school pupils were dismissed early in observance of Armistice day.

Recent guests at the John Blackman home included Mr. and Mrs. Milton Gred and son, Bob, Miss Babel Blackman and Mr. and Mrs. Frank Neumann of Kenosha, Edward Bannan of San Francisco, Cal., Major R. H. Sykes of Springfield, Ill., Mrs. R. H. Sykes, sons, Bob and George, and daughter, Mary, of Golf, Ill. On Tuesday, Col. Armstrong, and Major Baird of Springfield, Dr. J. H. Holloway and son, Bud and Dr. Burge and Dr. W. Glass of Evanston, all spent the day at the Blackman home and enjoyed hunting.

Mr. and Mrs. Fred Padley spent the week-end with their daughter and fam-

ily, Mr. and Mrs. C. A. Johnson in Chicago.

Mr. and Mrs. Winn Peterson and daughter, Gloria Mae of Kenosha, spent the day Wednesday at the home of their daughter, Mrs. Louis Rausch. Misses Erminie and Grace Carey entertained at two tables of bridge at their home on Monday evening.

Donald Johnson and Henry Johnson spent Monday and Tuesday in Milwaukee taking tests for the U. S. Army Signal Corps. They both passed their tests satisfactorily and are waiting to be called.

The McGuire family of Chicago recently spent two days at their Wilmot home. They announce that word is being received regularly from their brother, George, who is stationed at Pearl Harbor.

Mr. and Mrs. Herbert Sarbacher spent Wednesday afternoon in Kenosha and in the evening they visited the

latter's parents, Mr. and Mrs. John R. West in Zion.

Mrs. Fred Padley attended a Red Cross meeting in Racine on Monday. Due to gasoline rationing, she resigned her post as president of the Racine unit, a position she had held for several years.

Several members from the Fred Semrau American Legion Post, attended services for U. S. Marine Corp. Hans Chet, Jensen, which was held at the Silver Lake church.

THE GIRL BEHIND THE COUNTER  
BACKS THE MAN BEHIND THE GUN!

There are miles of open water between the counters and the Caucasus—and all the battle stations in between! But in this war distance means nothing. What is happening in Cleveland, Louisville and Rochester has a tremendous influence on what is happening in China, Libya and Russia.

Take the matter of price control, for instance. By co-operating in holding down rising prices, your merchant is making a major contribution to America's war effort. By doing his part to prevent inflation he is bringing Victory that much nearer.

He is doing his part on the firing line, too. Our boys will fight better if they know there won't be any post-war depression to fight when they get back home.

Yes, your merchant, going about his daily job, posting his ceiling prices, marking the prices of his goods back to the levels of March, is a key man in war as he has always been a key man in peace—a key man and a HE man on the home front! His co-operation cheerfully given, to the office of Price Administration, is Sealing the Ceiling from price raids!

He is proud of his part—proud in the knowledge that his employees are cooperating with him and Uncle Sam, 100%.

WHITE COLLIE CATTLE DOG — SOME HOUSEHOLD GOODS

ARNO P. SCHMIDT, Owner

Here are some tips on cleaning your lamp shades...to make them look new and bright

American housewives, restricted by scarcities and more interested in putting extra cash into War Bonds, are making old things about the house do double duty. There was a time when a dirty lamp shade meant a trip to the store for a new one, but now the picture is changed. Modern American housewives now look for a way to repair and renew the nice things they have, to keep their homes bright and shining at minimum expense.

One direct way to a bright, cozy home is to have clean lamp shades. Read these easy rules on cleaning them up safely, as recommended by our Home Lighting Advisors.

**FIRST:** Most fabric shades which are sewed are washable. Shades which are glued on, painted or made with materials that shrink when wet are not washable. Shades which are held with glue can be dry cleaned.

**SECOND:** Before washing remove all loose dust with a soft brush, and tie a cord on the wire at the top long enough for hanging the shade. Then make a sudsy solution of warm water and completely dissolved mild soap flakes. If the top or bottom is especially soiled, dip a soft brush in the water and brush lightly. Then dip the entire shade up and down in the soapy solution a number of times.

**THIRD:** After removing shade from soapy water, immediately rinse thoroughly in clear warm water (which has been prepared beforehand) by dipping up and down. Large tubs such as basement laundry tubs or bathtubs are ideal for shade washing.

**FOURTH:** Dry by hanging shade from clothes line by means of cord. Fast drying is essential to prevent the metal frame from rusting. Do not hang in sunshine or near artificial heat. Wind blowing through the shade will dry it quickly and evenly.

## Fad Becomes Fashion

The Steinkirk fashion of wearing a cravat casually tied in a loose knot originated on a battlefield, according to the research staff of the Cooper Union Museum for the Arts of Decoration. In 1692, the French army was surprised at Steinkirk, Belgium, and the men rushed forth to battle with their cravats hastily tied in loose knots. The soldiers fought so successfully that their casual dress became a fad throughout Europe and has borne the name Steinkirk ever since.

## In Hot Water

Thinking an electric iron would be a good substitute for a hot water bottle, a housewife in Helsingfors, Finland, placed it in her bed and turned on the current, but her inventiveness brought unexpected recognition by the city. She forgot about the iron, the bed caught fire, and she was fined for wasting electricity.

## Silencing Horn

Many a motorist's most embarrassing moment has come when the horn "stuck." If a few taps on the horn button fails to stop the noise, lift the hood and disconnect the wire which leads from the ammeter to the horn. The short probably is in the wire and an inspection of the insulation very likely will reveal it quickly.

## One Suit Equals Two Blankets

There's enough steel in one set of 60-pound bed springs to make two four-inch shells for a 105-mm. gun, a 250-pound kitchen stove contains enough iron to make a single 500-pound aerial bomb, and a man's woolen suit uses enough material for two army blankets.

## Great Shipyard

The largest single plant in the war production drive is the Newport News Shipbuilding and Drydock company, employing 27,000 men; the smallest is the Armstrong Manufacturing company plant at Portland, Ore., which employs 19.

## Never Handle Money

Women of the British royal family who never carried handbags since it was "beneath" them to handle money, now carry a purse for cosmetics and incidentals. Ladies-in-waiting continue to handle the money.

## Navy Post Graduate Work

Each year a selected group of young officers of the U. S. navy are ordered to post graduate work at leading engineering schools throughout the country.

## Army Bunks

A single minesweeper contains enough lumber to build 20 average civilian homes and an average chair represents the wood needed for an army bunk.

## Not a Loss

Blind-killed chestnut trees need not be a total loss, for the wood is well suited to manufacture of shipping containers, forest experts advise.

## Use Left Hand

Rather than juggling it from the left hand in the American way, most Britons keep the fork in the left hand when transferring food to the mouth.

Washington Became Capital  
The City of Washington became the capital of the United States less than a year after the death of George Washington, December 14, 1792.

Ascend to Great Heights  
Buzzards, condors, hawks, gulls and albatrosses can ascend to great heights and soar for hours without any apparent motion of their wings, by taking advantage of minor air currents through imperceptible movements of different parts of the body. The principle is similar to that by which a kite or glider is flown. A bird which is flying forward and upward against the wind without flapping its wings is in effect riding on an ascending current of air. The motive power seems to be supplied by very slight body, head and tail movements.

Lots of Berries  
Late statistics from the department of agriculture show that approximately 648,000 crates of strawberries were sold. Of the berries sold, growers estimated that they received for fresh market sales an average price of \$1.30 per 24-pint crate, and expected final season payments from processors of 4.4 cents per pound. Processors handled about 78 per cent of the state's marketable production this year.
